7. Venue in this District is proper under 28 U.S.C. §§ 1391 and 1400(b).

#### **BACKGROUND**

8. On July 4, 2006, U.S. Patent No. 7,070,692 ("the '692 patent"), entitled "Fuel Filter With Keys," was duly and legally issued by the United States Patent and Trademark Office. A true and correct copy of the '692 patent is attached as Exhibit A.

9. On August 8, 2006, U.S. Patent No. 7,086,537 ("the '537 patent"), entitled "Extension and Locking Assembly for Dripless Element, and Container Therefore," was duly and legally issued by the United States Patent and Trademark Office. A true and correct copy of the '537 patent is attached as Exhibit B.

10. On January 16, 2007, U.S. Patent No. 7,163,623 ("the '623 patent"), entitled "Fuel Filter with Keys," was duly and legally issued by the United States Patent and Trademark Office. A true and correct copy of the '623 patent is attached as Exhibit C.

11. The '692, '537, and '623 patents are owned by PI. Parker is the exclusive licensee of the '692, '537, and '623 patents, with the right to sue for past, present and future infringement and the right to seek injunctive relief and monetary damages.

12. Baldwin has manufactured and sold, or is presently manufacturing and selling, filters and filter elements ("the accused filters") including filter elements designated as Model Numbers PF7789, PF7889, PF7890, and P7235. Upon information and belief, the accused filters are sold to retailers, distributors and resellers who resell the product throughout the United States, including in the State of Ohio.
